

Card and mobile personalization validation

Be confident in the interoperability of your issued cards.

Fix card personalization quickly to prepare for payment scheme certification.

Every card project is different and can be time consuming if not approached in the right way. Our tailored personalization validation service gives you confidence in the quality and interoperability of your cards and payment devices.

How it works.

- Tests are performed on sample cards by our experts using our **PersevalPro Issuer** tool.
- Customized and detailed test report with minor/major issues and best practice recommendations.
- Clear guidance and troubleshooting advice to achieve successful project completion swiftly.

Fime can help you at any stage of your project lifecycle.

Card & mobile personalization validation testing services.

Key benefits

- Reduce time to market and minimize administration with access to highly-qualified EMV® and payment brand experts.
- Walk-in test slots available via a worldwide, on-demand, high-volume service.
- Meet deadlines with a pre-defined SLA and high-speed service (48 hours).
- Helping you coordinate key project stakeholder.
- Rely on our high-quality system of cross-checks developed in coordination with certification bodies.
- Pre-validation available on any type of platforms (AEIPS, ChipV, CPA, D-PAS, J/Smart, M/Chip, PURE, Visa, WISE, mobile).
